Tank; fresh/dirty	90 / 90 lt.
Brush speed	See brush head chart
Brush contact pressure	See brush head chart
Scrub width	550 / 650 / 750 mm
Suction width	940 mm
Weight (w/out batteries)	150 kg.
Dimensions	1450 x 800 x 1200 mm

### Interchangeable Brush Heads

To cater to a wide range of applications, brush heads are available in various working widths for the B90. All have easy brush replacement system. The roller decks incorporate a waste hopper for debris collection.

Choose a disc system for smooth surfaces or a roller system for texture or tiled surfaces.

For multiple surface types choose both heads and save on having to purchase 2 complete machines. The tool free changeover of the brush heads takes only minutes.
